YOUR ESSENTIAL INCIDENT RESPONSE ACTION PLAN

Don't wait for a security breach to happen. Be proactive and plan your incident response now to address and mitigate potential threats effectively.

THE FOUR STAGES OF NIST'S INCIDENT RESPONSE LIFECYCLE

1 **Preparation and planning**
Prepare for potential threats by identifying assets and risks and forming a response team.

2 **Detection and analysis**
Stay ahead of threats by quickly identifying and analyzing common attack vectors.

3 **Containment, eradication and recovery**
Act fast to eliminate threats and restore systems effectively.

4 **Post-incident activities**
Learn from incidents and improve security measures to stay ahead of the game.
